

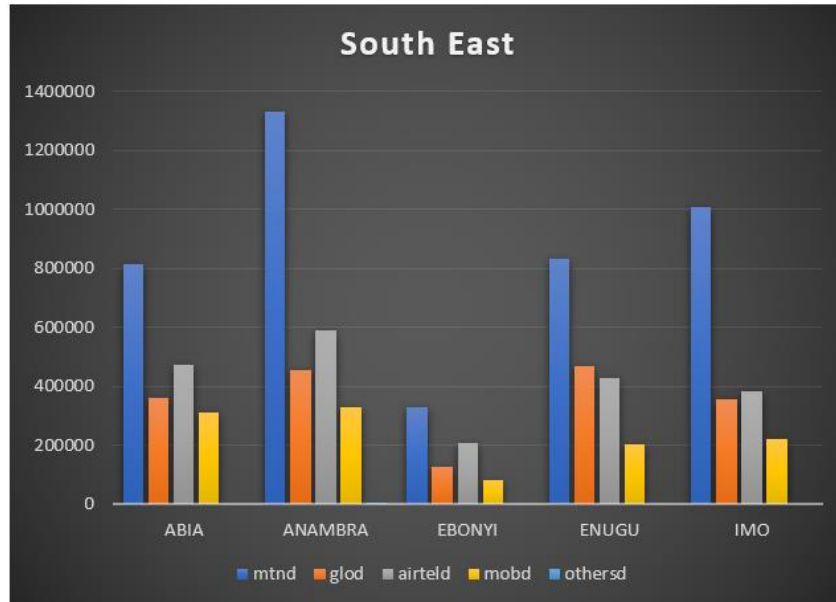

Figure1.10: Frequency of Telecom Services for Data Purposes in the South East Region

Source: NBS, Telecoms Data (Q4 2017)

MTN is most used in Anambra and most found in Anambra among all South Eastern states. Next is Imo, Enugu, Abia and Ebonyi. Airtel which is the second most preferred network in Anambra is also most found in Anambra state. Enugu has as its second choice of network for data purposes, Globacom. The lowest number of users for 9mobile is found in Ebonyi state.

The South South region of Nigeria also has 881,950 users of MTN network for data purposes to confirm it as the most used in the region. Globacom has an estimated average of 661,136 users. Airtel for the same purpose, has 416,525 users across the region, 9mobile has 229,521 users while 16,492 users subscribe to other networks. (See Appendix B2)
